

From Main Media Group -  
People should be directed  
to look at framework  
Prior to writing proposal.

Avi Epstein  
MNT+

I would like to suggest  
taking <sup>framework</sup> document one step  
further - taking examples from  
different content areas and  
using them when discussing  
Research Design, Methods,  
etc.  
Since more projects are →

not slotted in one arena only.

I'd be happy to talk with  
CAISE about this
