1. Time considerations
2. Monitoring will go back to 2006.
3. Summative evaluations need to be posted on informalscience.org
4. Dissemination is expected
5. Can evaluation protocols/instruments be posted?
6. Some guidelines for what should be posted by the summative evaluation on unformalscience.org would be helpful. E.g. tools/resource/pre/post test/survey, interview/observation prot.

7. IRB reviews are required.

8. Need basic guidelines for IRB process.

9. Place IRB forms on the CAISE website.
9. Provide IRB training through an online tutorial

10. Share permission forms and formats

11. Local universities can be a good resource

12. Consider an evaluation of multiple youth programs if applicable

13. Is there flexibility with the reporting? Can PI's determine the schedule?
4. Unwritten rule: Summative evaluator should be external to the project.

5. Need an option within ISE for major longitudinal evaluation studies (10 yrs).

6. ISE needs a long term research option.

7. Frameworks do not address equity issues.
