PIs: Lynne Zummo (Natural History Museum of Utah [NHMU]; University of Utah), lynne.zummo@utah.edu
Co-PIs: Lisa Thompson (NHMU)

Project Description

We aim to advance learning theory around climate change in ISL settings, support climate action among frontline communities, & use community-engaged research to refine an innovative museum exhibit about climate change.

Key Achievements

- Launched collaboration with community partners; community board 50% recruited
- Developing systems and preparing students for data collection

Audience & Settings

Audience: Utah public

Disciplinary area: Climate change

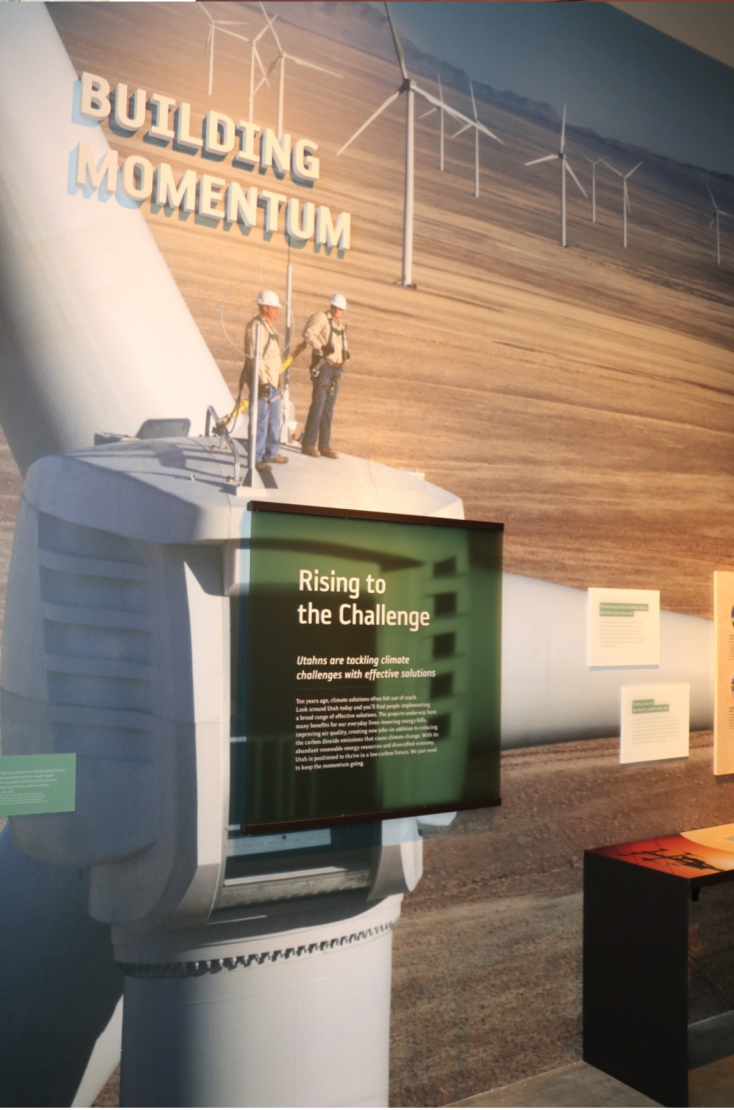

Learning environment: Natural history museum

Access and Inclusion

We are hiring a community board from a historically underserved neighborhood at the frontlines of climate impacts. This board will advise on research, inform exhibit revisions, and launch new climate justice programs in Salt Lake City.
